The Bow Valley Call

Devoted to the Up-Building of Gleichen and the Development of the District Generally

Year IV., No. 38.

GLEICHEN, ALBERTA, THURSDAY, DECEMBER 8, 1910.

\$1.50 Per Year

MUNICIPAL ELECTION

When Returning Officer B. S. Corey opened the booth at McKie & Henderson's office Monday morning there was nothing doing and he peacefully whiled away the time in reading until about 11 o'clock, save for an odd ratepayer who dropped in to enquire how business was proceeding. Up to then it appeared the present mayor and councilors were to go in for another term by acclamation, but despite Mr. Griesbach's statement as published in our last issue that he was satisfied to allow this to be the case, he could not withstand the temptation and consultations were soon in progress, followed by nicely sealed letters being placed in the returning officer's care. Their speculations began and a nice little crowd was present to hear the result:

Nominations for Mayor

Dr. Wm. Rose, nominated by Messrs. T. H. Beach and A. R. Yates.

Emil Griesbach, nominated by F. C. Vigor and W. H. Beard.

Nominations for Councillors

Thos. Henderson.

C. J. Bray.

W. H. James.

All nominated by T. H. Beach and A. R. Yates.

F. C. Vigor, nominated by E. Griesbach and A. R. Yates.

This announcement was not very graciously received by the friends of the present council, who thought that they should be allowed a full term in order to carry out the excellent work they have begun, and also that it was putting the town to unnecessary expense. There were a few, however, who expressed their approval of having an election for various reasons, among them being that a contest would provide some fun, those elected would know they were appreciated and would work better.

Since nominations the forces have been lining up in favor of their candidates and some very warm discussions have been heard on the streets.

When interviewed Mayor Rose said he was in the contest to win and while he was quite sure of what the outcome would be he would nevertheless work faithfully and as hard as his time would permit. He was anxious to carry out the work outlined during his present term of office as he believed it would be to the best interest of every ratepayer and to the town. Everyone had read the policy of the present council and he hoped fully understood it.

Mr. Griesbach, when asked what his policy would be by a reporter, replied:

"You know as well as I do what that will be. We have talked about the town affairs so much together."

Will it be any different to the policy of the present Council?

No. I want to see all the improvements made that have been talked about. But we must be careful that the money is spent right. There are plenty of things the Council could have done that they have not tried to do. I think we could get water cheap from the Gas company, who have a good supply. Then we should try to get more railways into Gleichen and there are many other things to do. I do not think the grading of the streets did much good. I think I will try hard to be elected and get these things done right. They say I never did anything for the town, but I would like to know what the others have done.

When Mr. Vigor was asked what his policy would be he said he was in favor of all the improvements the council proposed. "But," said he, "I don't know yet that I will be a candidate. I don't think there will be an election. I would not run if I thought Mr. Henderson would resign for I think he is a good man for the position. Anyway I don't want the job and I will tell you my nomination was put in for fun."

C. J. Bray, who has been a councillor since the first village council was established, said he had nothing new to say regarding his policy further than endorsing the action of the council of which he is now a member. Regarding the water-

works and sewerage system, personally it would not benefit his hardware business only as a fire protection, but he was not selfish and believed it the most necessary thing for the building up of the town and its general welfare in health protection, and in encouraging others to come here to live or enter into business.

W. H. James said he thoroughly endorsed the action of the Council he was a member of, in the improvements for the town. He thought the absence of a good system of waterworks and sewerage was the greatest drawback the town has, and that in talking to the many travellers he had to meet he found they usually spoke of Gleichen as the best town they visited, but always reminded him that Gleichen was behind the other towns in this respect. He believed the present councillors would be re-elected.

Mr. Henderson, also a present member of the Council, said he was not anxious for re-election and had not fully decided whether or not he would remain a candidate as he did not believe in putting the town to the expense of an election for the fun of spending about \$50. He believed he and the rest of the Councilors had done everything they could during their short term, and hoped the improvements suggested would be endorsed by the ratepayers.

On a vote of the parishioners of St. Andrew's Church it was decided to offer the property for sale at \$6000, this includes four 27 ft. by 125 ft. lots on the corner of Gleichen street and Fourth ave., and the parsonage; but not the church. It is, undoubtedly, the most central site in town for a business block and is a rare chance for an investment.

Ice cream proved a splended fire extinguisher yesterday morning at The Hub. In starting the gasoline stove to make hot drinks the tank took fire and a couple of cans of ice cream thrown over the flames effectively extinguished them, which otherwise might have resulted most seriously.

The men who stole J. Rouech's horses, seven miles north of Gleichen, about two months ago, were arrested at Grand Forks, N.D., and were taken from there to Calgary on Monday by Officer Ryan, of the R.N.W.M.P. Their names are Geo. Watson and Wm. Baal, who were caught at Grand Forks following a series of burglaries, and when in jail Baal confessed to the theft. The men were known here by quite a few people. The mounted police followed them pretty close and found they had breakfast at the C.P.R. section house, at Cluny, the morning after the horses were stolen, and from there followed them south to the boundary line.

Corporal Tabita has resigned from the R.N.W.M.P. and is now in Vancouver. Corporal T. Irvine has been moved from Strathmore and now fills the position in charge at Gleichen.

Pantiechin. Visit the elaborate sale of fancy articles and home made cooking conducted by ladies of Presbyterian church on Saturday Dec. 10th at Ed. Ure's old stand next to Gleichen Hotel. The correct spot to buy your Xmas gifts.

The Presbyterian Ladies Aid and Pantiechin, what next? Reserve Dec. 10th. Don't make any engagements to conflict with the Pantiechin.

The coming of the air-ships should be a boon to sky pilots.

The richest people in the world today are those who have perfect health.

THE SEED GRAIN FAIR

There was not a large attendance at the third annual Gleichen Seed Fair last Friday, more's the pity, for the standard and quality of the grain shown was remarkably fine, and excited the judges' warmest praise. The judges were Messrs. A. E. Wilson and C. E. Lewis. Mr. Wilson is said to be one of the most successful grain growers in Saskatchewan, and Mr. Lewis is the chief weed inspector of the Department of Agriculture. The judges did their work very thoroughly, and while some are prone to say they were not equal to the judges of last year, it must be remembered that judges of grain have different methods and herein is one great advantage the farmers have in attending the fairs year after year.

The exhibits were not so numerous as in former years, there only being twenty-seven exhibits made by fourteen exhibitors. But by this it must not be inferred that only fourteen of our farmers consider that they have seed grain this year. There may be a number of reasons why more exhibitors did not take advantage of the fair and compete for the prizes so generously supplied by the government. Chief among these reasons being the inclemency of the weather that day, being one of the coldest days up to that date. Then there are those who forget that the Fair is coming until they really have no time, as for instance, one man appeared on the scene about 20 minutes after the fair closed to enquire of the date. There are also those who are afraid their neighbor might possibly beat them, those that are careless, and, possibly, some who are so filled with carelessness that they do not want to learn or help their fellow farmers along, nor assist the Association that has brought about so many good things they willingly partake of.

The prizes were awarded as follows:

Winter wheat, Alberta red—1st, J. C. Buckley; 2nd, A. D. Shore; 3rd, D. H. Cripo.

Spring wheat, any variety—1st, F. C. Renaud; 2nd, Frank Daw; 3rd, N. W. McMillan.

Oats, white, any long or milling variety—1st, N. W. McMillan; 2nd, W. D. Trego; 3rd, J. R. Allgood.

Barley, two-rowed—1st, J. R. Allgood.

Barley, any other variety—1st, F. E. Renaud.

Garden peas—1st, F. E. Renaud.

At the meeting there were not over 70 present; but those who were there learned a great deal from the speeches of the two judges, who also answered the many questions put to them by their appreciative audience. Mr. Lewis spoke on weeds and their eradication, while Mr. Wilson dealt mainly with seed and its preparation for planting.

The directors of the Association worked hard to make the fair a success and deserve much credit for their effort, Secretary Corey being necessarily kept very busy and elevating a great deal of the time.

Toronto Sure of Good Xmas Beef

The good people of Toronto are sure to have good beef for Xmas. This year for J. J. Bartsch shipped 400 head of as fine steers as ever left the Gleichen stock yards, last week, to that city to be slaughtered for the Toronto Xmas trade. Toronto folks are said to be nearly as fond of good beef as the proverbial Englishman and if they complain this Christmas they should at once call upon their dentists.

The annual meeting and elections of officers for the ensuing year of the Gleichen District Agricultural Association will be held in Griesbach's Hall tomorrow—Friday—afternoon and it is requested that every member make a special effort to be present. The directors have accomplished a great amount of excellent work during the past year and the president's report should be a particularly interesting one. The financial report will also be gratifying as it is understood the obligations of the Associations have been well and carefully looked after.

Every endeavor is being pushed forward to make the forthcoming Masquerade Ball a spectacular as well as a social success. To attain this end, and to add to the curiosity and enjoyment, it is necessary for all to keep the identity of their costumes a secret, in fact, don't let the right hand know what the left is going to wear. Anyone who is desirous of hiring a costume can do so by applying to Messrs. W. H. McKee, T. Fisher or T. F. Rowe as these gentlemen have lists from Calgary's leading costumiers, and have made arrangements for the delivery and return of all costumes required.

The various committees of the united children's Christmas tree are working apace, and considerable progress has been made towards the attainment of the looked-to success. The tickets have been distributed for sale and in the hands of the youngsters they are being "pushed off like hot cakes," which is a guarantee of a record crowd at the Gleichen Opera House on Friday, December 23rd. The entertainment committee have the program well under rehearsal, and it is authoritatively stated that several of the children's items are going to be a pleasurable surprise to all. The arrangement of the program gives a most diversified selection of items, and combining an entertainment that should long be remembered by all who will be present. That it will be a planet in the constellation of life to the little ones goes without saying.

On Sunday evening a very large congregation of all denominations assembled in St. Andrew's Church to hear the farewell address of Rev. T. W. Castle and bid him and his good wife "God-speed." Mr. Castle chose as his text "Is there not but one God, are we not of the same creator?" In an impressive address he exhorted all to rise above the sordid things of life, to live in harmony and good-will with each other and try to forget the differences of belief in the effort to attain the end all should strive for. Mr. and Mrs. Castle left en route for England by the early Monday morning train taking with them the love, esteem and good wishes of all, which, by their good work during their residence in this diocese, they had truly earned.

James Fax Concert Co.

Notwithstanding the short notice a large audience congregated in the Gleichen Opera House on Monday night to witness the performance given by the above company. To say that every item of a long program was repeatedly encored hardly conveys the extent to which the varied items of this talented company were appreciated. Unfortunately talent as dispensed by Jim Fax and his company is too rare; but it becomes all the more welcome when received. "Jimmy" is a host in himself, and his comedy is ever fresh and clean, provoking the most hearty laughter. His numbers of the evening were too numerous for specialization; but suffice it to say that the audience always wanted more. Mr. Reuben Fax is truly a "chip of the old block." Possessed of a tuneful voice, mainly presence, and pleasant speech and action he gave a good account of himself, particularly in the comic duets with his 'dad.' Miss McNeil in her vocal numbers scored a huge success. Her voice is melodious her expression superb, and her contributions were enthusiastically encored. Her duets with Mr. Fax were a particular feature. Miss Florence Galbraith, a lady of prepossessing stage presence, gave a series of dramatic and humorous recitals, and in all acquitted herself admirably. Her elocutionary powers are of great breadth—passion, pathos, sarcasm and humor all treated with high artistic ability.

Seated on a piano stool most of the evening was a petite little damsel—Miss Agnes Quigley—whose sympathetic touch on the pianoforte brought forth melody that was as pleasant to listen to sing to. It is to be hoped that the return date of this versatile company will be in the near future, as it is not at all likely that we will have "too much of a good thing" in the meantime. "And then is Fax."

One Pass Book for Two People

is a convenient feature of the Traders Bank Savings Department.

It saves the danger of keeping much money in the house, as the wife can draw whatever is needed for the week's expenses while the husband is at work. Either can deposit—either can draw out cash.

Just ask to open a JOINT ACCOUNT in the Savings Bank Department.

DOCTORS FAILED

Suffered Several Years With Kidney Trouble, "Purm Cured Me."

Mr. John N. Vassallo, 113 Belmont Street, St. Louis, Mo.—"Among all the specialists I consulted my kidney and bladder doctor said there is nothing he could do. He equals Purman in his fees, so for several years I took him. They only poisoned my system. Purman cured me."

"One bottle did the trick," says Mr. John N. Vassallo, "and I am still here together, though they only poisoned my system. Purman cured me." A complete cure was accomplished, but an interesting note is that the doctor can do nothing to acknowledge the fact, which I take pleasure in now doing."

Bladder Trouble.
Mr. Charles E. Dabrowski, 357 St. George Street, Ottawa, N. Y., writes: "Since my advanced age of 71 I have been troubled with urinary trouble. The bladder seems to irritate and burn. It was not caused by a prostate, but rather by a kidney condition on account of my advanced years. I took a number of remedies, but that I would be helped but found to my surprise that Purman's treatment gradually subsided, and the kidney disease disappeared. I have enjoyed excellent health now for the past two years. I sleep well, eat well, sleep soundly, and am as well as ever at my age. I take pride in being a Purman patient."

Mother, "Oh, Baby, I am ashamed of you. I never told stories when I was a little girl."

John, "When did you begin, then Mummy?"

Weak, Sticky Babies Make Home Wretched

No home is happy where there is a sick baby. The sufferings of the little ones in the whole world are the work of God, and no father or mother would not rather suffer themselves than their babies.

But there is no reason for watching helplessly while your baby is ill. Our Tablets will cure all the minor ills of childhood and childhood not only in health but in happiness.

The Tablets will keep baby well. That is why we send him happiness through the Tablets making him strong and healthy. Among them is Mrs. C. Ross, Georgetown, Ont., who writes: "We have had many babies with our Tablets as a help to the baby during the time of illness. We used them and are much pleased with the results. We have given them by medicine dealers or by mail a 25 cents a box from the Dr. Willian Laboratories."

When you stand on the doorway always get past the little baby before you give the belle a ring.

ODDITIES OF NAMING. Their Distinctiveness.

Besides names and surnames, other names indicate the districts or countries from which they are derived, such as, for instance, champagne, mousse, and the town of champagne, connected with good brandy. It may be mentioned that the word "champagne" was derived from the nickname of Admiral Vernon, who was a captain in the British navy and who was called "Old Grog," because he wore a cap made of grogram.

Another title derived from the name of a place is calico, from Calicut, in India; and the provinces of Bengal and Bihar, in India, are overcast with a fog much in vogue for a few ages ago. The word "fog" is derived from the name of a town in Milan, a trader in Milan goods, who gave his name to the town, and their names from the two families, the Balmer and the Dabrowski, in the Battle of Waterloo, and Hesdin, and Bapaume, were born.

Names of cities, towns, and villages, which originated from names of persons, are numerous. Thus, for instance, Joseph Abouzian brought his name to Canada, after the town of Majdal, Queen Victoria. The name of Charles Mackellar, a Scotchman, was given to a castle invented by him, and of John Macadam, a Scotch engineer, to a macadam, the process of making roads by rolling in broken fragments of stone.

Another takes its name from Corinth, in the neighborhood of which many small grape vineyards and cayenne pepper grow in the province of Cayenne, in French Guiana; peach, from Persia; and plum, from Damascene or Damascus plum, but it has no connection with the capital of Palestine, being a corruption of plum.

Names of animals, birds, insects, plants, which it much resembles, in Kiderminster, Axminster, Turkey Hill, and so on.

Names of birds, and insects, too, are given to animals, and are given to them.

Names of flowers, and so on.

Shoes that Combine
Both Style and Fit

Few men wear clumsy, badly
made, ugly shoes from choice.
They may say that they prefer
them to shoes that are handsome and
stylish—but do they?

Most men wear ugly shoes simply
because they have an idea that
they're the only comfortable shoe
made.—

And also because they have never
worn INVICTUS Shoes.

We have INVICTUS Shoes in the
newest 1910 styles which will fit
every line of your foot easily, com-
fortably and snugly.

Remember the soles of all INVIC-
TUS Shoes are made of genuine tan-
tanned sole leather—the most dur-
able sole leather there is.

Lost, Found, Army and Wanted advertisements 5 cents one insertion or three insertions for \$1. Displays \$1 per column inch per month. Changes should reach this office not later than noon each Monday.

W. PARK EVANS, Publisher and Proprietor.

Gleichen, Alberta, December 8, 1910

A Good Christmas Spirit

It is just a little over two weeks until Christmas will be here again and Gleichen people will spend a very merry one this year, for the church ministers and congregations of this town have united in a Christian spirit that may well make the church folk of bigger cities feel they do not enjoy. The Catholic, English, Presbyterian and Methodist churches have all joined hands to give the children of this town a Merry Christmas. In uniting they have displayed to a nicely the kindly feeling that should ever exist between religious denominations, and one that will have more lasting good in the minds of our boys and girls than many long sermons. They will have occasion every Christmas of their lives to look back upon the one spent in Gleichen in 1910. To the older people it will only be a Christmas tree and entertainment; but for those for whom it is got up—the children—it will live on for ever. Let us have more of this unity for the benefit of our boys and girls, and for the benefit of our town.

CHRISTMAS

The glad, joyous, festive time draws near, and unnumbered hearts are beating in delightful anticipation. Store windows are decked in holiday attire. The holly and evergreen hang in festoons, and the wonderful Christmas tree is gradually putting in appearance. Cherry voices ring out in rehearsals of song and chorus for celebration night. Merry Christmas will soon be here and Christmas songs are songs of peace. Christmas greetings are greetings of good will. How they soften hard hearts, purify base desires, sweeten bitter thoughts, and make every deed purer and holier; every wish, kindler and tenderer. Let hearts expand, sympathies enlarge, and good will reign. Let benedictions drop from lips, and substantial gifts fall from overflowing hands. Make cheerless homes radiant, and hopeless hearts to thrill with unspeakable gladness. Forgive your enemies. Bury the past. Rise above the mean and petty resentments which you may have harbored against those who have not used you well. Be generous. Get ready to start the new year with more kindly feelings and more noble ambitions. Make the Christ of this year a day to which you can always look back with pleasure and gratitude. Peace and good will unto you, dear reader, and a Merry, Merry Christmas to all.

The White Plague

The white plague kills thirty people every day in Canada and should be driven out of the country. The strong as well as the weak are liable to contract the disease. It is largely a house disease and does not thrive so well where there is plenty of air and sunshine. Dr. Latham says: "The two main sources of the seed supply of consumption are (1) the expectoration of consumptives and (2) the products of the cow-milk and butter. Twenty per cent. of the milk supplies of towns in England and ten per cent. of the butter contain living tubercle bacilli capable of producing the disease. One glass of milk out of every five sold across the counter may carry the seed of death. One pound of butter out of ten may produce some form of tuberculosis."

But the remedy is simple, inexpensive, and proved by experience to be sufficient. All milk before it is sold or used for making butter should be heated to 110 degrees Fahrenheit for twenty minutes. This process destroys all the germs of consumption and other diseases in milk, loses nothing to diminish the food value, and does not materially affect the taste.

Regarding the inadequacy of the present arrangements for treating the consumptive in the early stages of the disease, Dr. Latham said: "It shows how much remains to be done, when it is realized that in England and Wales there is a consumptive population of from 250,000 to 300,000, while the number of beds available at sanatoriums is generally stated at 1500."

It seems decided that the Canadian Pacific Railway will ship natural gas from Medicine Hat to Calgary for the illumination of passenger coaches on the main line. Two transport cars built especially for this purpose in Germany, will be used. The cars are of the flat type equipped with stationary frames into which are fitted horizontal steel cylinders or flasks 15 feet long by eight inches in width, which are capable of sustaining a pressure of 1700 pounds to the square inch, or 18 atmospheres. Each car carries 33 flasks, and if the experiment prove satisfactory, the gas will be introduced into all the C. P. R. cars in the west for illuminating purposes and will supersede the the Pinch gas system. It has been used with satisfactory results for the past year on the trains running out of Medicine Hat, but with the storage problem solved, other divisions besides the local one, will be furnished with the same illuminant, which gives a superior light to coal oil or manufactured gases, and carries with it the advantage of in reality costing nothing.

During the banquet last week, an interesting statement was made by the mayor. He indicated that the natural gas wells of Medicine Hat have been in use for ten years; that, during that period, some of the gas has escaped and been wasted; some of it has been used for lighting and heating purposes; but that the rock pressure of 600 pounds to the square inch remains the same as on the day the wells were discovered.

Don't we need more backbone for the interests of humanity? Not a spinal column that cannot yield or bend; but upright, and that will fearlessly express upright and just opinions—a gentle, honest steadfastness, which is cruel never.

For a Christmas Present that will last a year
send The Call to your friends.

NOTICE

NOTICE IS HEREBY GIVEN that the Grand Trunk Pacific Lines Company will apply to the Parliament of Canada, at the next session thereof, for an Act authorizing amending the Act incorporating the Company, Chapter 23, of the Statutes of 1895, and an Act of the Legislature of Alberta, Chapter 23, of the Statutes of 1902, and by Bill No. 10, of the Legislature of Alberta, Chapter 23, of the Statutes of 1906, by authorizing the execution of the following additional lines of railway:

23. From a point on the Western Division of the Grand Trunk Pacific Railway between the east limit of Range 21 and the west limit of Range 22, in the south-westerly direction to a junction with the line mentioned in paragraph 24, or a point on the line mentioned in paragraph 24, between the north line of Township 23 and the south line of Township 24.

24. From a point on the line mentioned in paragraph 23 between the east limit of Range 21 and the west limit of Range 22, in the south-westerly direction to a junction with the line mentioned in paragraph 25, or a point on the line mentioned in paragraph 25, between the east limit of Range 22 and the west limit of Range 23, west of the First Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 26, or a point on the line mentioned in paragraph 26, between the east limit of Range 23 and the west limit of Range 24, west of the Second Meridian.

25. From a point on the line mentioned in paragraph 24, or a point on the line mentioned in paragraph 24, between the east limit of Range 22 and the west limit of Range 23, west of the First Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 26, or a point on the line mentioned in paragraph 26, between the east limit of Range 23 and the west limit of Range 24, west of the Second Meridian.

26. From a point on the line mentioned in paragraph 25, or a point on the line mentioned in paragraph 25, between the east limit of Range 23 and the west limit of Range 24, west of the Second Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 27, or a point on the line mentioned in paragraph 27, between the east limit of Range 24 and the west limit of Range 25, west of the Third Meridian.

27. From a point on the line mentioned in paragraph 26, or a point on the line mentioned in paragraph 26, between the east limit of Range 24 and the west limit of Range 25, west of the Third Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 28, or a point on the line mentioned in paragraph 28, between the east limit of Range 25 and the west limit of Range 26, west of the Fourth Meridian.

28. From a point on the line mentioned in paragraph 27, or a point on the line mentioned in paragraph 27, between the east limit of Range 25 and the west limit of Range 26, west of the Fourth Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 29, or a point on the line mentioned in paragraph 29, between the east limit of Range 26 and the west limit of Range 27, west of the Fifth Meridian.

29. From a point on the line mentioned in paragraph 28, or a point on the line mentioned in paragraph 28, between the east limit of Range 26 and the west limit of Range 27, west of the Fifth Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 30, or a point on the line mentioned in paragraph 30, between the east limit of Range 27 and the west limit of Range 28, west of the Sixth Meridian.

30. From a point on the line mentioned in paragraph 29, or a point on the line mentioned in paragraph 29, between the east limit of Range 27 and the west limit of Range 28, west of the Sixth Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 31, or a point on the line mentioned in paragraph 31, between the east limit of Range 28 and the west limit of Range 29, west of the Seventh Meridian.

31. From a point on the line mentioned in paragraph 30, or a point on the line mentioned in paragraph 30, between the east limit of Range 28 and the west limit of Range 29, west of the Seventh Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 32, or a point on the line mentioned in paragraph 32, between the east limit of Range 29 and the west limit of Range 30, west of the Eighth Meridian.

32. From a point on the line mentioned in paragraph 31, or a point on the line mentioned in paragraph 31, between the east limit of Range 29 and the west limit of Range 30, west of the Eighth Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 33, or a point on the line mentioned in paragraph 33, between the east limit of Range 30 and the west limit of Range 31, west of the Ninth Meridian.

33. From a point on the line mentioned in paragraph 32, or a point on the line mentioned in paragraph 32, between the east limit of Range 30 and the west limit of Range 31, west of the Ninth Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 34, or a point on the line mentioned in paragraph 34, between the east limit of Range 31 and the west limit of Range 32, west of the Tenth Meridian.

34. From a point on the line mentioned in paragraph 33, or a point on the line mentioned in paragraph 33, between the east limit of Range 31 and the west limit of Range 32, west of the Tenth Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 35, or a point on the line mentioned in paragraph 35, between the east limit of Range 32 and the west limit of Range 33, west of the Eleventh Meridian.

35. From a point on the line mentioned in paragraph 34, or a point on the line mentioned in paragraph 34, between the east limit of Range 32 and the west limit of Range 33, west of the Eleventh Meridian, thence generally westerly direction to a point on the line mentioned in paragraph 36, or a point on the line mentioned in paragraph 36, between the east limit of Range 33 and the west limit of Range 34, west of the Twelfth Meridian.

PROVINCIAL NEWS

(Our weekly letter from Calgary)
This Man Found a Fortune in Alberta

A man from Ontario, who came to Alberta with a wife and two children as his sole assets, and now to be worth \$20,000 as well as having a home of his own, is the fortune of R. Franklin, who has been here for ten years. He started with his good fortune and the chances of success in western Canada. At first he was a trapper, and in course of time publicly greatest for Calgary.

I am going back to France in the spring for the purpose of interviewing capitalists in Calgary and Alberta generally, and I intend to use my influence to get the information concerning the commercial opportunities here and to do all in my power to promote the interest of our city and province. You will see in a letter from Secretary Webster of the Board of Trade,

Good Crops at Namao Farm

Encouraging reports concerning the good crops raised in Alberta despite the exceptional dryness of the season have come in recently. The latest report is from Namao and cannot but fill the most pessimistic with optimism.

Mr. Morris & Son & Company who operate a large farm at Namao, known as the "Namao Farm" sent in the following statement:

"We are glad to say that our crop at the Namao Farm was much better this year than we expected. We grew 100 bushels of wheat, 100 bushels of oats, and we expect little crop."

On July 25, we estimated our crop at 6,000 bushels of wheat. A week

ago, we again estimated our crop at 12,000 bushels. A few days later

we again estimated our crop at 18,000 bushels, but after harvesting until yesterday, we found we had 20,150 bushels.

"This crop was made quite promptly to maturity. We have a better opinion of the fertility of Alberta lands than ever and can say that it is higher than we had made up our minds to buy land with ordinary maturity."

Such a statement from a man

as Mr. Morris, who is a well-known

farmer in the west, cannot fail to be intensely interesting to farmers throughout the country.

Increase of Freight Received is Irrigation Block

Local Freight Agent Huber has just received a statement of freight received in the Bow Valley during the month of November. The total amount of freight received in 2,032 tons being made up principally of coal, milk products and agricultural implements.

The total amount of freight sent out of the British Colony of Nightingale, late last year, was 50 tons.

With the growth of the extraneous growth, these small mining towns with the trifled districts of the Bow Valley, have become a center of agriculture and competent inspection so that the market value of the products will be equal to their cost of production. Pat Burns, whose name is familiar in the meat market business from the border to the east, has offered to supply the market with a small charge, for each animal killed, so that the facilities for such an inspection will be complete.

Alberta Land Reilly Being Taken Up

Just out from the United States Standard Eastern Land Co. has received in the value of Alberta land, is shown in the number of homesteads filed, during the past month, have been taken up.

Province. Nearly 170,000 acres of land passed from the hands of the Dominion government to private citizens in the Colonization Department according to official report issued at the end of November. North of Edmonton were taken up 100,000 acres of land on territory lying to the northwest of Calgary, across the Red Deer

River. This very desirable land, being level and well watered and had been the "steers" of most of the settlers who have come into this country during the past year. The trail leading northwards to the homesteads is a well beaten, unobstructed road.

A Green Yield of Potatoes

A section foreman at Castles, near Lethbridge, has reported no potato crop an excellent yield of potatoes from a strip of land planted in the irrigation ditch.

This was a dry summer, and

the summer was an exceptionally dry one, experienced farmers assert that the yield from such a crop in an average year of rainfall, will be very plentiful.

Building interests in Hamilton estimate an expenditure of \$10,000,000 for the city of Calgary during the year 1911.

These figures based on an estimate of the figures for the last three years.

The new Bow Valley Canal

Calgary proper, is twelve square miles in area.

As soon as the new Calgary

shuttle passes through Elbowton, the city will increase its present size by three times and add approximately, 3,000 inhabitants.

Its population will then

give it an area of thirty-six square miles, and a population of 31,000.

Mr. J. D. Dunlop, of Dunedin, New Zealand, who represents large commercial interest, has been visiting the Bow Valley looking to colonial settlement methods in the Province.

Land sold, during the past month, in the irrigation Bow Valley, at \$2,280 per acre.

Twenty-one, 100-acre non-resi-

dential and while some 6000 acres were sold in Central Alberta. When it is considered that the irrigation will

give an area of thirty-six square miles, and a population of 31,000,

it will be evident that the desire for these fertile lands is as keen as ever.

Local Farmers seem to statistic that fall in Alberta is 180,000 acres

against 120,000 the preceding fall.

It has always been maintained that

Alberta is a great winter wheat

country and these figures bear out

the statement and these figures bear out

TOWN AND DISTRICT

On Tuesday over 600 head of cattle were shipped from Gleichen.

P. Wertz, the popular lumber artist, is building a new residence on Gleichen street.

Walter H. Smith left on Monday for Huntsville, Ontario, to spend three weeks at his home.

A large boarding house west of the fire hall on Gleichen street, Col.

John Doherty was engaged in transac-

tions which will affect his business and visiting his many friends.

John Ryan shipped at Gleichen over 400 head of cattle from the Tex Bar ranch last Friday to Winnipeg.

It is stated the survey of the land relinquished by the Blackfoot Indians will be completed in about a week providing the weather remains fine.

300 men joined at A.R. Yates' livery stable, Call for a select

year for the Macquarie Hunt.

The sale of lots in the west end division, placed on the market a couple of weeks ago, has been sold rapidly and now there is only a few lots left. This is good evi-

dence of the interest in Gleichen.

For the benefit of those who may be well to state that the that the L. C. L. Inn for a restaurant is open to the public. It is a good

boarding and lodging house.

The paper, Hally's Herald, for reading, chess, croquet, cards, chess, & news paper and all kinds of news decorations at Yates' Drug Store.

Wm. Kirkup left this week for P.E.I., Labia, where he will tell his family of the beauty and grandeur of our land.

Mrs. Kirkup is a widow, boarder of boarding and lodging house.

Mr. and Mrs. Gervin have

for wedding, Miss Irene, a

card, & news paper and all kinds of

news decorations at Yates' Drug

Store.

The practice of the children's

Christmas tree will be held in

the Methodist Church Thursday evening at 7 o'clock sharp.

Last week a large number attended

and enjoyed the program.

Cards, & news paper generally

connected to conduct the services in St. Andrew's Church until the afternoon.

The service will be held every Sunday evening until further notice.

When giving directions let me assure you that you know best what

you want to do.

What gives direction best are

those who have been there before.

The remains were brought

to Gleichen for burial on Saturday.

What a fitting a place for a Xmas

service! A good many people

will attend the service at

Yates' Drug Store.

Mr. and Mrs. Gervin have

for wedding, Miss Irene, a

card, & news paper and all kinds of

news decorations at Yates' Drug

Store.

A new school district was formed

on Monday to be known as the Hamill Hill School District.

At the meeting Messrs. Inniss,

Inman and Kimball were elected

trustees. This was considered

the most important election of

the school house and it is to be

hoped that it may be the last

it may be necessary for the de-

parture to settle the dispute.

In the meantime the services of

St. Andrew's W.A. met at Mrs.

W.H. James' home on Tuesday

and a large number were present.

The services were opened with

a short service followed by a

devotional service.

The Quarterly branch of the

United Farmers of Alberta will hold

its first annual meeting at the Pine

wood Hotel on Friday Dec. 1st.

The meeting will open at

8 o'clock when after a few

words for the opening year and to

express the thanks of the

United Farmers convention at Cal-

gary in January.

An invitation has been sent to Vice Presi-

dent Trefethen of Calgary, Alberta,

at the meeting Friday.

After the meeting a supper will be served

with a speaker to discuss the

ladies and debaters by the local

juniors. In the evening a dance will

be given to which an invitation is

extended to all members and their

friends.

NOTICE

BY-LAW NO. 10
A By-law of the Town of Gleichen to regulate
the erection of houses, buildings, etc., on the
land within the boundaries of the Municipality
of Gleichen, and to regulate the erection
and maintenance of trees, shrubs, hedges,
etc., on the land within the boundaries of the
